PROGRAMMING & WEB DEVELOPMENT

- JavaScript
- TypeScript
- Python
- React & Next.JS
- NodeJS
- Git & GitHub

AI & DATA SCIENCE

- Pandas
- NumPy
- Matplotlib
- Seaborn
- Scikit-learn
- Data Cleaning
- Data Visualization
- Basic NLP
- Machine Learning

BISOLA SODIKAT ALAYANDE

AI Engineering Student | Junior Web Developer

Hi there! I am an organized, proactive, and growth-oriented Artificial Intelligence Engineering student with hands-on experience building AI-powered applications, intelligent data pipelines, and full-stack software solutions. I am passionate about using AI to solve real problems, improve workflows, and create tools that genuinely help people and organizations. With strong foundations in Python, machine learning fundamentals, React, and Node.js, I focus on developing practical, human-centered AI systems that deliver clarity, automation, and measurable impact.

Beyond technical skills, I bring excellent communication, documentation, and administrative support abilities, with experience using Microsoft Office Suite, Google Workspace, and cloud collaboration tools to streamline operations. I thrive in environments where learning, teamwork, and contribution matter. My goal is to expand my AI expertise, learn from experienced professionals, and add meaningful value to every team I join through enthusiasm, adaptability, and a commitment to high-quality work.

EDUCATIONAL BACKGROUND

Currently

Near East University - B.Sc. in Artificial Intelligence Engineering

Focused on problem-solving, systems design, and project collaboration.

Transferred from:

Amity University – B.Sc. in IT Software Engineering

Built a strong foundation in programming (Java, C++, Python), database management (MySQL), and Microsoft Office Suite.

EXPERIENCE

Software Engineer Intern - Sanlam Allianz (Mauritius Branch)

- **Maintained and organized client data records with high accuracy.**
- **Assisted with reporting and documentation for insurance operations.**
- **Developed a Premium Calculator tool that reduced manual calculations and improved efficiency.**
- **Collaborated with supervisors and team members to support operational workflows.**

Software Engineer Intern – Near East University

- **Developed administrative dashboards for user management and reporting.**
- **Assisted in documentation and system testing activities.**
- **Collaborated with project teams to deliver solutions on schedule.**
- **Maintained records and monitored project progress.**

DATABASES & TOOLS

- MongoDB
- MySQL
- Prisma
- Docker
- VS Code
- Postman
- MS Office
- Google Workspace

SOFT SKILL

- Problem-Solving & Creativity
- Communication & Teaching Skills
- Leadership & Team Coordination
- Collaboration & Teamwork
- Adaptability & Fast Learning
- Empathy & Community Orientation

HOBBIES

- Reading
- Baking
- Singing
- Researching
- Hiking
- Networking & Collaboration

HOBBIES

Dean of IT, *Amity University*

✉vanalini@mauritius.amity.edu

Mrs. Mary Driscoll
Director at *SanlamAllianzRe Mauritius*

✉ marydriscoll13@gmail.com

LEADERSHIP & COMMUNITY INVOLVEMENT

Admin & Team Leader – DevByte Community (Africa)

- Coordinated instructors and learners across multiple training programs.
- Scheduled meetings and managed communications between team leaders.
- Mentored aspiring developers and provided ongoing support.

Volunteer Tutor – Free Hype Lessons (Nigeria)

- Provided academic support to students in Mathematics and Sciences.
- Maintained lesson schedules and student progress records.
- Communicated regularly with learners and parents

Co-Founder – She Builds Tech

- Organized workshops, mentorship sessions, and community events.
- Coordinated communications with participants and mentors.
- Assisted in planning and executing educational programs.

ADDITIONAL TECHNICAL SKILLS

Scorevision — Student Performance Dashboard

- Built a Python pipeline to process student records and generate statistical summaries.
- Created visualizations to identify performance trends and patterns.
- Exported results as JSON and integrated them into an interactive React dashboard.

NEU App — Administrative Web Application

- Developed with Next.js 15, TypeScript, Prisma ORM, and MongoDB.
- Integrated AI powered content generation using Groq.
- Added secure authentication using NextAuth.js, role-based access, and export functionality.

CareerLens (In Progress) — AI Powered Resume Analyzer

- Developing an AI powered resume analysis system using TF-IDF vectorization and Cosine Similarity to compute resume-to-job match scores.
- Implementing PDF text extraction and NLP preprocessing to identify missing technical skills, generate personalized ATS compatibility insights, and deliver an intuitive user interface for interactive resume analysis.
